EDUCATION

University of Waterloo

Bachelor of Computer Science (Honours, Co-op)

Waterloo, ON

Class of 2031

Victoria Park Collegiate Institute

IB Diploma

Toronto, ON

Jun. 2026

TECHNICAL SKILLS

Languages: C++, Java, Python, TypeScript, JavaScript

Frameworks & Web: React, Next.js, Node.js, Tailwind CSS, Spring Boot

Cloud & Databases: Firebase, Supabase, Google Cloud, Cloudflare, Vercel

Tools & Developer Utilities: Git/GitHub, Postman, Claude Code, Google Gemini

PROJECTS

OlympIQ | *Next.js, TypeScript, Firebase, Firestore, olympiq.ca*

May 2026 – Jul. 2026

- Built a scheduling and team-management platform for my high school's Science Olympics team with 60+ competitors, designed to cut 10+ hours of manual spreadsheet labour using a custom algorithm that ranks and assigns competitors to their preferred events while avoiding scheduling conflicts
- Designed and shipped the platform independently, piloted with the team's executives, and set to be adopted by the entire team in the 2026-27 season

Flowboard | *Next.js, React 19, TypeScript, React Flow, Zustand, Anthropic API*

JAMHacks 2026

- Built a codebase onboarding tool that scans a GitHub repository and renders folders, files, and functions as an interactive dependency graph
- Grounded an AI assistant in repository context (file hierarchy, visible graph nodes, and code excerpts) so answers reference the actual codebase instead of providing generic advice

TeacherAId | *Firebase, Firestore, Claude API, Cloudflare Workers*

GenAI Genesis 2026

- Built a classroom analytics platform that classifies misconceptions from students' written reasoning and generates class-wide dashboards with adaptive, targeted reteach suggestions
- Proxied Claude API calls through a Cloudflare Worker to keep credentials server-side

FrostByte | *Next.js, Node.js, Firebase, Gemini API*

Hack Canada 2025

- Won Best Use of Gemini AI or Gemini API for a web app that estimates frostbite and hypothermia risk from live weather and clothing input, with safe-exposure time limits

EXPERIENCE

C++ Instructor

Jul. 2024 – Aug. 2024

Kurios (nonprofit)

Remote

- Designed and taught a 5-week introductory C++ course to 11 university students covering syntax, data types, pointers, and functions
- Every student successfully built a fully functional Library Management System using arrays and custom functions for their final project

Head Trainer

Feb. 2023 – Jun. 2026

Science Olympics Team, Victoria Park C.I.

Toronto, ON

- Led a team of 6 trainers; all 4 junior teams coached placed 1st at Western University's Science Olympics
- Created the team's first structured training program and recruited experienced competitors as trainers
- Then developed OlympIQ, which is set to run scheduling and signups for the team

AWARDS

Hack Canada 2025: Best Use of Gemini AI

St. Lawrence Coding Competition: 1st Place Team, 2024

CALICO Informatics Competition (UC Berkeley): Bronze Medal, 2024

Canadian Computing Competition (Senior): Distinction, 2024, 2025, 2026

Competitive Programming: DMOJ Top 2%; Codeforces 1200+; USACO Silver; 500+ Problems Solved
